

Winterpock Teacher Receives VASCD Teacher-in-Action Grant

Stephanie Peterson, a second-grade teacher at Winterpock Elementary in Chesterfield, has been named as the first winner of Virginia ASCD's Teacher-in-Action grant. Peterson will receive a \$1,000 award for materials and technology to accelerate the implementation of project-based learning units in her second grade classroom.

We are so proud to recognize great ideas, and so pleased that, at least in part, VASCD's conference inspired Stephanie to expand her use of PBL with her students. As part of the project, Ms. Peterson will be studying the relationship between PBL units, student engagement, and academic achievement. We look forward to helping her share her results!
